Communication Quiz Mini Kit

Explore communication preferences and build bridges of understanding

Why is it that communication flows so smoothly with some while with others it can be bumpy and frustrating? The way you communicate has a great deal to do with your personality. Interacting from different perspectives can leave teammates feeling baffled, irritated, and offended. This powerful, easy-to-use activity will help your participants recognize the communication patterns of themselves and others. By exploring the communication approaches and preferences for each personality style, you'll increase trust, strengthen rapport, and foster a more cohesive team.
